LOOK FOR HUGE OIL FIELD IN SOUTHERN ALBERTA

Geologists Claim Wyoming Structure Extends Well
Into Central Alberta With Possibility Of Locating
One Of The World's Largest Fields

Standard Oil Co. Looks To Canada To Help Maintain Its Position
In Oil World—Large Development In Alberta Fields In
Coming Summer Now Appears Assured

With spring about to make a rush to the centre of the
stage, interest in oil activities at the border, and in Central
Alberta, where there is a strong feeling that oil will be found
in quantity both at Okotoks and at Wainwright, is re-
awakening, and the summer promises to see the greatest
development in the history of the province

That Alberta contains a huge body of oil, "enough to last
the entire world for centuries" is the prediction which has
been made by great geologists. A recent dispatch from
New York, centre of the Standard Oil Co. interests, declared
that "the Standard Oil is looking to Canada to assist in
maintaining its position in the oil industry."

Present operations are centred in Alberta, where through
its subsidiary, the Imperial Oil Company the Standard Oil
has spent several millions and acquired considerable acreage
At Calgary a refinery has been started at an initial
investment of \$2,500,000, and provisions have been made for
enlargement

Large acreage in Alberta was acquired recently by the
Imperial. The acre under development is the Sweet Grass
area and extends from the vicinity of Calgary into northern
Montana

Leo Castle Back in U. S. A. Vets Help

ADRIAN, MICH.—The Adrian post of the American Legion has
appealed to Secretary of State Hughes to aid in effecting the
release of Leo Castle, 18, a Canadian citizen, who twice risked
his life by crossing from Canada into the United States, on the
girders of the International bridge at Niagara Falls. Castle who
is held here for Canadian authorities, crossed on the bridge
girders, he said, because he lacked the necessary \$8 for a head
tax to enter this country in the usual way

On his first crossing he was apprehended and returned. The
second time he reached Adrian, where he was lodged in jail.
Castle desires to become a United States citizen, according to the
legion, and the local post is asking the secretary to intercede in
his behalf with Canadian authorities. The local post has offered
to pay Castle's head tax if he is permitted to remain

LORD CARNARVON IS DEAD

Old Legend Held That Those Who Disturbed Kings Must Die

Bite of Spider Led To Attack of Pneumonia

Suggestion Is Made He May Have Touched Poisonous Object, Left In Tomb As Act Of Revenge

CAIRO, April 5.—The Earl of Carnarvon died peacefully at 2 o'clock this morning. He was conscious almost to the end.

His death was due to blood poisoning from the bite of a spider with the later development of pneumonia.

The death of Earl Carnarvon comes shortly after the culmination of the exploit that brought him chiefly into public notice—the discovery of the rich tomb of the Pharaoh Tutankhamen in the valley of the Kings in Egypt, by the expedition which he headed.

While the press of the world was still devoting no small amount of its space to the notable contributions to the world's art and history, which Lord Carnarvon and his fellow explorers had uncovered, came the news that he had suddenly been stricken down and was lying seriously ill in Cairo from the bite of an insect.

By the public at large the misfortune which the Earl had met was regarded as a lamentable incident of what might happen in a tropical clime such as that of Egypt. But to the students of the Egyptian mysticism, the news did not come as a surprise. Even before Lord Carnarvon was stricken with blood poisoning announced as due to an insect bite, there had been talk of the curses laid by the ancient Egyptians, with mystic incantations, on any who dared disturb the sleep of a pharaoh. After he was stricken the old legends spread and hundreds were to be found, not before superstitious, who were ready to believe that the old Egyptian curse had fallen on the rich and famous Englishman.

Winter weather still continues at Bow Island, at the time the Review went to press it was still snowing. According to the Geologists this will be a cold, wet year.

Eight Killed In Big Four Wreck

Train Hits Auto Near Columbus and Results Are Most Disastrous

COLUMBIA, Ohio.—The death of W.L. Siebert of Cincinnati, a student of the University of Cincinnati, today increased the death toll of the wrecking of the Southwestern Limited of the Big Four Railroad at the northern outskirts of city yesterday, to eight.

Three men all aboard the train, the speed of which was estimated at seventy miles an hour, and a woman and her two small children, also passengers of an auto which the locomotive struck at a grade crossing were instantly killed. Siebert and another man died later in the hospital. Eleven injured in hospitals today were reported on the road to recovery.

One hundred and eighty passengers were aboard the train.

Railroad officials have not determined whether the train buckled after sudden application of the brakes or if some part of the demolished auto got under the "runny wheels" of the locomotive, causing it to tip and six of the women coaches to leave the rails.

View of the tracks at the point where the accident occurred is hidden by a building, and Mrs. Luella Hemminger, 32, wife of Frank Hemminger, Columbus attorney, who had her two children, Robert and Dorothy, aged five and three respectively, in the car with her, drove onto the track directly in front of the train.

Borden News

Mr. Henry Jenkins left for Moose Jaw, Sask. on Monday on business.

Miss Lightner, Miss Simpson and Messrs. J. L. Simpson, Vigil Committee Chester Pennington and Ray Taylor were guests of Mr. and Mrs. D. Pedersen on Sunday last.

Surprise Party

A surprise party was given in honor of Miss Simpson at Borden on Friday last, quite a number were present, the evening was spent in dancing, cards etc. Lunch was served and all departed to their homes in the early hours.

Mr. J. Lloyd Hanson who has been spending the winter with his sister, Miss Mae Simpson at Borden Teachers leaves for Oregon this week.

Miss Annie Lawson teacher of Maxwell School spent Easter holidays in Lethbridge.

Look For Oil Fields in Alberta

Continued from Front Page

Attention of the Standard Oil interests was first drawn to the field, it is said, by Chief Starkey of the London Geological Society, who was the first geologist to predict oil in Wyoming. He gave as his opinion that the Wyoming structure extends clear through Montana into Central Alberta, with the possibility of the greatest quantity of oil being found north of the boundary.

In a recent report covering the Alberta field, Mr. Starkey said in his judgment it contained sufficient oil to supply the entire world for several centuries.

London Window Cleaner's Strange Vocal Powers

Strathie Mackay Sings Two Notes at the Same Time

LONDON.—Strathie Mackay, a window cleaner, can sing two notes of music at the same time, and has been the subject of much curiosity and interest in London recently. The Department of Phonetics in London University has shown deep interest in Mackay's case and has subjected him to tests and at his own request has arranged for further tests of his remarkable talent.

One of the tests was made by Prof. Daniel Jones, head of the department of phonetics in the University. At the conclusion the professor told a newspaper representative that Mr. Mackay's voice was absolutely unlike any other he had ever heard. He said that it was phenomenal.

At the professor's request, Mackay sang a number of notes with the double voice, and records of these tones were taken by the kymograph, an instrument which shows sound vibrations. By these means it was possible to keep a strictly scientific measurement of the musical intervals between the double notes that were sung.

Prof. Jones explains that Mackay apparently has the power when singing to make one of his vocal chords vibrate at half the rate of the other, or at a third, fourth or fifth of the rate. It is this that produces the double notes.

Weights 301 pounds at 16 years

CHESLEY, Ont., Wm. Marlovitch, 16, of this town, is said to be the heaviest boy in Bruce county. He weighs 301 pounds. In spite of the fact that he earns his "Daily Bread" by strenuous work he continues to put on weight.

Stop Seed Testing at Schools

No further seed testing for farmers will be carried on at the School of Agriculture in the Province, according to an announcement from the Department of Agriculture, by Hon Geo. Houldy. It is also announced by Dean Howse of the Agricultural College at the University, that no more seed testing will be done there. For some time it has been the custom to test samples of seed sent in by farmers at the School of Agriculture and at the College, but these seed testings had no official status, since the Dominion Government maintains a large and competent staff at its Calgary Branch for the purpose of providing official seed testing. It has been decided therefore, that there shall be no further duplication of this work by the Schools or College of Agriculture. Samples of seed should be sent by farmers to the Dominion Seed Branch at Calgary.

Special Rates on Seed Grain

It has been arranged that the same reduction in freight rates as apply to seed grain sent out from the Government Seed Plant shall also apply to registered seed grain sent in by farmers to the plant at Edmonton. To obtain this rate it is necessary for farmers having registered seed to send to the Government plant to have a certificate signed by W.J. Stephen, Crops Commissioner of the Department of Agriculture, to the effect that the seed is from crop, inspected by an inspector and eligible for registration. The reduction in rates amounts to about 45%.

Former Clerk in City Bank kills

Himself as Police Officers Arrive

Was Wanted on Charge of Issuing Worthless Cheques; Jury Returns Verdict of Suicide

Left Letters for his Parents and Sweetheart

CALGARY—

Shooting himself through the head with an automatic revolver just as he was about to be arrested, Burton Lawson Perry, 22 years of age, formerly an employee of the Canadian Bank of Commerce here, and recently of Nanton, Alta. ended his life at 2 o'clock Wednesday afternoon. At an inquest held the coroner's jury returned a verdict saying "Perry came to his death as the result of a revolver wound inflicted by himself."

Mortgage Sale of Farm Property

Pursuant to the directions of the Registrar and by virtue of the power of sale provided by the Land Titles Act under a certain mortgage there will be offered for sale by public auction at the Myrtle Hotel, Bow Island, Alberta, on Saturday the 14th day of April A.D. 1923, at 2 o'clock in the afternoon.

The North West quarter of Section Thirteen (13), Township Nine (9), Range Eleven (11), West of the Fourth Meridian, containing 100 acres more or less, reserving unto His Majesty, His Successors and Assigns all mines and minerals.

TERMS—10% Cash at the time of the sale and the balance according to conditions to be made known at the time of the sale or upon application to the Vendor's solicitors.

The sale is subject to a valid reserve bid and free from all encumbrances save the exceptions, reservations and conditions in the original grant from the Crown in the existing Certificate of Title.

The Vendor is informed that the above property is situated 9 1/2 miles from railway station and post office and 2 miles from school, that there are on the land three good buildings and that 120 acres have been cultivated.

Winifred News

From Our Own Correspondent

The Seven Person's Young Folks Dramatic Company, presented a play entitled "A Poor Married Man" in the T.O.P.F. Hall on April 3rd, to a large audience, the players deserve great praise, the leading man Henry Meyer was excellent and he was well supported by the other members of the company, appropriate music was rendered by the company and the words that were on everybody's lips Saturday was that the Seven Person's Club are justly entitled to highest praise and will be welcomed to Winifred at any time, come again soon.

People are enjoying the spring-like weather and all are getting ready for hatching out chickens.

Mrs. Jessie Kule made a business trip to Medicine Hat last week.

Miss Katie Olechowksi returned from Gull Lake March 30th, where "she" has been employed for several months and expects to remain with her parents on the farm this summer.

Mrs. Elsie Workman left last week for Milwaukee, Wisconsin, her old home to visit her children.

Miss Ives Beckstrom from St. Theresa Academy, Miss Eva and Edith Parker and Miss Thorton Medicine Hat students are home for their Easter holidays.

Mr. Willard Cuming of Calgary spent a couple of days in Winifred looking up his elevator and farm interests.

Miss Thelma Long high school student of Medicine Hat is home for ten days Easter holidays.

It looks now as if farmers in this district won't be able to start spring work as early as has been expected, a wet week so early in the season and a snow covered here last week and is still covering the ground, farmers are satisfied that it came in good time.

Mrs. Ellen Holm left last week for Gull Lake district where she has been employed for the spring season.

Mr. A. Whitten of the State of Washington is looking over farm lands in this district.

Mr. Tom Stillie moved his goods to Taber where he has rented an irrigated farm for this year.

Mr. Gage of Spokane, Wash., was in Winifred last week looking up his farm interests for spring seeding.

Local market prices this week Butter 35c., Eggs 12c.

Eggs are coming in abundantly

President E. W. Beatty of the Canadian Pacific Railway, (right), views the skating contest at the N.W.A. grounds during the recent Winter Carnival.

Thoroughbred greyhounds, trained for the Waterloo Cup.

Robert R. R. Blakely was the driver of the motor car at the recent Winter Carnival.

Prince George, who recently underwent another successful minor operation.

Trout fishing on the Nipigon.

The first catch of the spring season was the Fox Lake tributary to Lake Frances.

The slope of this beautiful entrance to the Davis grounds will be visited by many Canadian visitors to the Exposition at Cornwall, Ontario, this year.

Winter sports at Banff include skating, curling, and roller skating, and the popular path.

Mr. John R. Baker, Mayor of Banff, will be a passenger on the Canadian Pacific train, which leaves at 10:30 a.m. on March 15th, and he will visit the Exposition at the Bow Street movement.

The Canadian Pacific Railway supported the Dominion Express for a season at Banff's Bow Inn. The "Bowlers" with a model of Banff behind it attracted considerable attention.

Seed Bed Preparation

Experimental Farm Note

The prime requisites of a good seed bed are firmness and moderate fineness of the soil. These two factors are both necessary for best results.

In the soils of Western Canada extreme fineness, especially on the surface, is not desirable owing to the high winds which are prevalent in the spring of the year. The fine soil particles are readily induced to drift, by the winds and for that reason the surface should be more granular than fine.

Most of the summerfallow land will have a very fine surface layer of soil, and it is highly desirable, in order to prevent drifting, that this fine layer should not be left exposed.

Usually, also a number of small weeds will have started to grow by the time the soil is fit to work, and for these two reasons, the grain should not be seeded directly in the ground. The duck-foot cultivator without some preliminary cultivation. The duck-foot cultivator with narrow teeth is the most satisfactory implement to use in this before-seeding cultivation. By the use of this implement the fine surface soil and young weeds will be buried and the moist, granular soil, which will resist the action of the wind, brought to the top. The smoothing harrow and the disc are implements commonly used but are not desirable on account of the fact that they make the surface more subject to wind damage. They will undoubtedly, destroy weeds, but that is not the only factor to be considered on the prairie.

The preparation of a seed-bed in ground other than summerfallow presents different conditions which permit of different treatment.

The surface soil of fall ploughed land is generally fairly firm, but hardly so fine as summerfallow, and the disc harrow may be necessary to get it into shape for sowing. Generally, however, the cultivator will do more satisfactory work on such land.

Spring ploughed land, on the other hand, is usually loose, open and rather lumpy, and the disc is under such conditions, the logical implement to use to get it firm and sufficiently pulverized to make a satisfactory seed bed.

The use of the smoothing harrow may be necessary in some cases to smooth the soil and to ensure the seed being evenly covered; but, generally speaking, its use should be confined to cases where this condition exists.

The amount of work necessary to produce the most profitable results will be governed by the condition of the land and the season, and the farmer himself must be the judge of his soil's requirements, as no set amount of preparation can be given which will be applicable to the various types of soil or to different seasons.

N. D. MacKenzie—Superintendent,
Experimental Farm—Indian Head, Sask.

Grassy Lake Theft Case is dismissed May Be Appealed

GRASSY LAKE, March 30.—A charge of theft was laid by Jim Franks, butcher here, against H.L. Burden, a farmer who has been in charge of Franks' farm, of a rifle, bridle and lantern.

The hearing took place yesterday in the municipal office before Justices of the Peace, Parker Carruthers and Geo. Lomas of Burdett. After some evidence the case was dismissed as it was considered a civil suit would be the right process. Both Franks and Burden to pay the costs between them. It is said the case will be appealed by Franks. A butcher's bill, an organ and a stove where also in the mix-up and appeared to be a dispute between the parties.

H.S. Burden has been put under bonds to keep the peace at the instigation of Jim Franks.

Burdett News

From our own Correspondent

Amongst those who were home for Easter were: Misses Bertha Anderson and D. Collins of Lethbridge; Misses Gladys Brown, Annie Statema, Ester Eloff, also Edgar Eloff and Roy, Anderson of Medicine Hat. Mr. Ray Pool of Stirling, Mr. Oliver Pool and Miss L. Tufeland of Taber, Miss Alice Pool and Nellie Evans of Calgary.

The Easter service held in the United Church was very well attended, the Church being full to its capacity, only standing room available, the choir being augmented by the presence of three of our old members Mr. O and Miss A. Pool and H. P. Johnston, the service opened with an anthem by the choir "Christ the Lord is risen today" followed by the Dorelody, and after repeating together the "Apostle's Creed" the choir chanted the "Lord's Prayer" after, the service followed in the usual order, the congregation joining heartily in the Easter hymns, preceding the sermon was a solo by Miss Alice Pool, "Hosanna" after a short, but impressive sermon by the pastor Rev. Johnson, on the "Easter Service" the choir rendered the Easter anthem "Christ our Passover is sacrificed for us," the service was brought to a close by the choir singing solo a vespers hymn.

Mrs. K. Brown left on Wednesday April 7th for Burlington, Ont. on receipt of a letter saying that her mother was very ill.

The Ladies' Aid of the United Church met on a pantry sale on Saturday the 14th, in the hotel dining room, the weather being very nice there were lots of people in town and they were well patronized, realizing the net sum of \$50.

BORN.—To Mr. and Mrs. Jos. Mundy a son.

The Burdett Women's Institute will hold their regular business meeting every 1st. Saturday in the month of March at Wednesday.

The next regular meeting will be at the home of Mrs. C. L. Brundage at 2:30 p.m. sharp on Saturday April 7th.

Rider on Blind-Baggage Are
Killed as Cars Tumble Over

COLUMBUS, Ohio, March 31.—Seven persons are dead and 15 injured lie in hospitals as the result of the wrecking of the "Big Four" train No. 11, which crashed into an automobile at a grade crossing north of here early yesterday, "killed" from the impact and the sudden application of air-brakes, and catapulted from the rails.

The train, composed entirely of steel Pullman cars, struck the automobile, instantly killed three occupants, a woman and three children, and hurled about the wooden cross ties for a distance of more than 100 yards before the engine and four of the coaches turned over on their sides.

An hour behind schedule, the train, one of the most luxurious operating by the railway, was entering the last lap of its long journey from Boston to Cincinnati when the accident occurred. Its engine, Andrew Green, of Cleveland said last night that he was speeding at the rate of 70 miles an hour when the automobile struck on the track a short 20 feet ahead. He applied the brakes immediately, he said.

Couldn't See Train

The driver of the car was unable to see the train because of a building at the corner and the crossing is guarded by a watchman.

Scenes of confusion greeted the first to reach the mass of twisted rails. Moity passengers were still in their seats, and others preparing to arise. Many were assisted from the windows and apertures cut in the cars and others more seriously injured, were carried out by rescue parties.

Mrs. E.S. Henninger, wife of a local attorney, who, with her two small children, met death in the automobile, had started on an errand in the country. She had planned to meet her husband at his office later, and he was awaiting her when he received a request to identify the bodies of his wife and family at the morgue.

Killed Between Cars

Besides the three occupants of the automobile, the dead were two members of the train crew, one passenger and a negro, who was riding "blind baggage" on the train. That more were killed was attributed to the fact that the Pullman coaches were of steel construction and did not crumple up.

Portions of the automobile and its occupants were carried more than a block. The track was torn up for far more than a city block, and traffic blocked.

The "Big Four" routed trains on its Cleveland division over the hocking Valley Railway the remainder of the day.

Successful Concerts

The entertainment given by the

Women's Institute on Easter Monday

was a decided success, opening with

the concert company by Mrs. Rygg,

while each number was good the

quartette, Mrs. Rygg, Mrs. Llewellyn

and Messrs. Seare and Litt, also the

reading by Mrs. Gage, deserve special

mention, and the living pictures by

Mrs. Bishop, took the audience by

storm, the pictures of, "Innocence,"

Mrs. Pool and baby, "An old fashioned

Girl" Miss Flora Nell, were the talk

of the evening, while the other pictures

were very good representing "Mange

and Jiggs," "Mother," "Easter," "A

"Summer Girl" and "A Winter Girl" and

lastly the "Veterans of Two Wars,"

Miss L. Hamel played appropriate

music while the pictures were

being shown.

The third installment was a musical

turn being filled by a selection from

the orchestra and by special request

Alice Pool who was home for Easter

gave her home town people a treat by

singing to them, her singing was re-

ceived with applause and they called

her back several times, while Alice

was always a favorite, the people were

very pleased to hear how she had im-

proved her voice by training.

The fourth evening was a play by

Messieurs Andrews, Bishop and Edward

the latter taking a masculine charac-

acter "a thought" it is sufficient, to those

who know these ladies to say that they

carried it off in their usual vicious

manner holding the attention of the

audience throughout.

Then last came the Cornville Jubilee

singers in charge of Mr. Litt, there

were nine of these gentlemen, all

dressed alike and their bright red

neckties were quite becoming to their

dusky complexions, for about one half

hour they kept their audience pleased

with their songs and jokes. Mrs. Nell

dressed as a young negress sang "My

Coal Black Mammy" which was

loudly applauded and they would not

be satisfied till she came back with

another, and Mrs. Frazier, sang "A

Negro Lullaby" which was also great

ly appreciated; Mrs. Seare was the

masculine soloist with his strong voice,

Mr. Ryall as end man and Mr. Bishop

gave a song, which brought great

applause. The Ladies wish to extend

heartily thanks to all who helped them

and also to the audience, for a sym-

pathetic audience is half the battle.

ONLY \$2.00 A YEAR

Here and There

It is announced that a new cave, the extent of which can only be surmised, has been discovered near the town of Glacier House, Glacier, B.C.

It has remained for the Canadian Pacific experimental farm at Strathmore to demonstrate beyond the possible shadow of doubt that the leasable trenchless system of providing winter fodder for cattle is, under favorable conditions, quite equal to the costly structures which have in the past been utilized and that the system is in every way the most efficient. This was proved to the satisfaction of a large party of agriculturists and business men, who recently visited Strathmore as the guests of the Canadian Pacific Department of National Resources.

The first successful radio experiment on a moving long distance railway train was recently carried out on a Canadian Pacific Railway train from Winnipeg to Vancouver. Mr. Raymond White installed a receiving set in the drawing room of the train, and the aerial was strung along the train, and the aerial was installed by the railway department. The results were that all that could be desired.

Seeing the train as it passed here while the was picking berries was the reason why Mrs. Fred Mueller, of Branson, Ontario, would not take a ride on a train, but after she had returned to W. B. McKelvey, the Canadian Pacific agent at the former station, that she thoroughly enjoyed the sensation of travelling for the first time on a train, which did not go fast enough for her.

CALGARY, Alta.—"We cannot expect to recover in a year or so from the effects of abnormal circumstances the whole country is suffering from," remarked W. B. Lanthier, of Montreal, freight traffic manager of the Canadian Pacific, in the course of an interview with "The Herald in Calgary." "But I am sure in making this prophecy that this year will witness a revival throughout Canada a revival of industry and agriculture, and that by 1924, the city of Calgary and the country tributary to it, as well as the rest of Canada are going to witness the return of their former prosperity."

It was in these words that the freight traffic manager of the great transportation company replied to the question as to how he viewed present conditions. "No matter what pessimists may say," he continued, "the resources of this country in minerals and in the fertility of the soil, has not been appreciably touched

and it has been inadequately advertised. The Province of Alberta, with all its agricultural possibilities, its wealth of coal, and in my opinion, the widespread of its mineral resources, is still waiting to be brought into the world. How any person can deny all these natural conditions and still remain a pessimist, is something I cannot understand."

James Lilly, road master for the railway at Charlton Place for many years and a native of Leeds county is retiring on pension upon reaching the age limit. He entered the railway service as a youth and has seen the railway grow from small beginnings into the present great system.

BRIDGEMAN, Ontario.—Several reconstruction pensions are announced on the Canadian Pacific Railway in this vicinity.

James Milliken, section foreman for the C.P.R. at "For some years he was on duty on the Montreal-Corcoran line and a number of years ago was transferred to Charlton Place.

After 28 years as station agent at Merrickville, and nearly 40 years in the company's service, James A. Angus has also retired on pension. He is being succeeded by H. S. Corbett, Merrickville, Que.

Mr. Kelly, who has been assistant division engineer of the C. P. R. at Smith's Falls, has been appointed division engineer, same rank at Strathmore.

The steel structure for the new C. P. R. over the bridge over the G. T. R. tracks at Kingston Junction has arrived and the Dominion Bridge Company, Montreal, the contractors, has started to erect the bridge which, when completed, will open the new line into the city for the C.P.R. and G.N.R. trains.
